Quintuple Type-C + Triple Type-A

USER'S MANUAL

Please read this manual
before using the product

**THANK YOU FOR
CHOOSING TURONIC 380W CHARCHER!**

This power adaptor provides stable output with low heat generation and overvoltage protection.

HOW TO OPERATE

- Connect the charging cable to the respective USB-C or USB-A port on the **380W Charger**, depending on which cable you use and what output power you need.
- Connect the other side of the charging cable to the device to be charged.
- Connect the power adapter to the power source.
- The device will start charging.
- When the device is charged, disconnect it from the charging cable.
- Disconnect the USB cable from the power adapter.
- Disconnect the power adapter from the power source.

CLEANING AND MAINTENANCE

- Disconnect the power adapter from the power source.
- Wipe the adapter using a dry, lint-free cloth.
- Always store the product in a dry place.

SAFETY RULES

- Use the product only as instructed. Read all instructions before operating the product.
- Do not disassemble any of the components. Refer all services to qualified personnel only.
- Do not place or store the product in a humid area and do not expose it to water or rain.
- The device is not a toy. Keep it out of the reach of children and pets.
- Do not leave packaging material lying around carelessly. These may become dangerous playing material for children.
- Protect the product from extreme temperatures, direct sunlight, strong jolts, flammable gases, vapours and solvents.
- Also observe the safety and operating instructions of any other devices which are connected to the product.
- Disconnect the product from the power outlet and the USB device when it is not in use.
- Never connect or disconnect the product if your hands are wet.
- Make sure that your device meets the product's power requirements (see Specifications).

FCC STATEMENTS

FCC Compliance Statement - Part 15

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance may cause interference and void the

FCC Interference Statement - Part 15

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular

installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

RF Exposure Information

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. In order to avoid the possibility of exceeding the FCC radio frequency exposure limits, human proximity to the antenna shall not be less than 20 cm during normal operation.
